Who We Are

Bestop Enterprise Limited started as a Far East support office handling sourcing, purchasing, production and quality control operations for our Germany-based office. We began as a design-driven importer and later transitioned into a textile manufacturing company. Over time we opened manufacturing units, embraced sustainability and expanded our operations to nations across South-East Asia. Today, we are a one-stop destination and a trusted partner for some of the biggest clothing and fashion brands worldwide, catering to all their design, sourcing, procurement and production needs.

In more than three decades of infallibly serving our clients, our employees have welcomed the second generation into the craft and seen them build upon the skill and knowledge of those before them. We firmly believe that our company's success is fundamentally driven by our people, a belief reinforced by our enduring client relationships.

Our relentless pursuit of stylish yet responsible fashion has consistently manifested in our work. As we anticipate growth on the horizon, we are driven to enhance our offerings by introducing new product categories, enriching and expanding our existing collections, to better serve our valued clients and extend this commitment to others by offering 12 collections/year.
